Everybody Delighted With Talkies at Palace

Splendid Reception in Operast
Friday Evening—Entertainment
Up to City Standard

A rattling good newspaper story 'In the H-Adelines,' was the opener for the 'Talkies' in Coleman last Friday evening. The Palace certainly is to be congratulated on the success of their first showing, and also for the splendid acoustic properties of the house. The film and sound was a Vitaphone production, the first two numbers being vocal and instrumental, in which the words were heard as clearly or even more so than if the singers were on the stage in person. The musical accompaniments came through the amplifiers perfectly, and this feature of the programs will be a decided advantage to small town theatres where orchestras are very difficult to secure.

The equipment installed by the Palace allows for sound production either by disc or by film, as talkies are produced by two distinct methods. This dual equipment will permit of showing the pictures of all companies producing 'talkies,' or sound pictures as they are known in the industry. The pictures shown last Friday and Saturday gave the sound by disc. In the second reel of the feature picture the reason of there being non-synchronization between the picture and the sound was because of a slight defect in the disc. This was overcome by using the duplicate disc, as two sets of discs accompany each picture.

With the pictures which have sight and sound combined in the film, the disc is not used, the sound being reproduced by an ingenious soundbox in the machine. The sound by film is produced by two methods. One method is similar to the rolls on a player piano, perforations in the side of the film giving the sound which synchronizes with the picture, while another method of sound reproduction is by color, which is a little too intricate to explain in a newspaper article.

Special care must be exercised in handling this intricate equipment, and the operating room of the Palace, which has been enlarged to double its former capacity, is a most interesting place. In addition to the picture and sound equipment, there is also a new orchestra, operated electrically, which will entertain the audience whilst waiting for the program to open, or during intervals.

A policy of the Palace has always been to keep ahead of every other town in the province in securing the latest features. There are only three places in Alberta which are ahead of the Palace in their showings.

The Palace therefore is giving people of the Pass towns entertainment right up to city standard, and the management is deserving in every way of commendation for their courage and enterprise in making such a heavy additional investment in order that the public may enjoy equally as good entertainment as can be obtained anywhere on the continent.

Mr. Dow states that all programs of the Palace will be sound pictures.

St. Alban's W. A. (senior) announces a play to be staged in the Opera House on Monday evening. Twenty ladies will take part, and the presentation is "An old time business meeting of the ladies ad." The director is Mrs. J. C. Lang. The ladies are putting on the play to raise funds for the church, and the admission is 50c, for adults, and 25c for children.

The Renaissance of the English Folk Dance

"Merrie England" and the apocryphal days of Queen Elizabeth with Maypole and Morris Dance are being given new life in the Old Country within the present century and so great is the popularity of the revival that Hyland Park, the great London rendezvous of rank and society, has been gay with annual festivals of folkdances in colorful motion. A century of industrialism has not been sufficient to kill the ancient tune and droll Shrove, thirty years ago was astonished to see countrymen in an English village, fantastically attired, come dancing through the snow one Boxing Day to the strains of a concertina. Eleven years later he founded the English Folk Dance Society which today has a membership of 15,000 with over fifty branches. Certificated teachers from this society have been doing excellent work in Canada and will be encouraged greatly by the visit to this country.

(407)

In connection with "Fire Prevention Week," observed throughout Canada and the United States between October 6 and October 13, a special telegraphic message has been sent over the entire Canadian Pacific Railway system by Grant Hall, senior vice-president of the Company, urging all officers and employees of the railway to co-operate by setting a good example of fires and the removal of the cause. This has been followed up by direct letters setting forth in detail how these objects may be accomplished.

"If the English people were well advised they would not be at all loath to invest in Canada," said Sir William Plender, president of the Institute of Chartered Accountants of England and Wales, a passenger on the Empress of Scotland, after attending the international congress of accountants recently held in New York. "One of the best sources of obtaining British capital in Canadian ventures in which Canadian capital is also invested and the people connected with them of high repute and standing," he added.

Undertaken as a nation-wide movement for the protection of British and Canadian music and to give Canadians an opportunity of hearing the music which is their legitimate heritage, the unique British and Canadian concert series sponsored by the music department of the Canadian Pacific Railway will, it is announced, be under the distinguished patronage of His Excellency, Viscount Willingdon, Governor-General of Canada. Six Canadian centres—Victoria, Vancouver, Calgary, Regina, Winnipeg and Toronto—have been selected for the first season's recitals and 14 artists in all will provide the programmes which are to continue at intervals during the fall and winter.

Definite steps to control the traffic in deer and moose hides which has reached large proportions, have been taken by Chief Game Warden H. H. Ritchie, of the New Brunswick Department of Lands and Mines. Last year 7,000 deer hides and about 700 moose hides were exported from New Brunswick largely to glove manufacturers in Quebec and Ontario and the states of Maine and New Hampshire. Tin seal tags must now be affixed to dead animals before transportation becomes legal.

Reports are appearing in the British press that the Prince of Wales stands to make a considerable amount of off production in his Elbe River ranch. Some reports have estimated the value of the ranch as high as \$5,000,000. This is regarded in the west as sheer guess work, although the Turner Valley which practically adjoins the Prince's ranch has developed oil on a large scale. Meanwhile there are no wells being drilled on the ranch though drilling is in progress about a mile away.

The prairies are usually associated with wheat and cattle, but they are also important sources of commercial fish. The third largest lake on the continent is in Manitoba and great bodies of fresh water in Manitoba, Saskatchewan and Alberta team with fish of high quality. In one day recently 40 carloads of whitefish and pickerel were shipped from these provinces to Minneapolis, Chicago and New York.

Here and There

(400)

The Canadian Chambers of Commerce who have been making a tour of western Canada, has reiterated its previous stand in favor of a continuance of assisted emigration of selected British settlers of the desirable type. A report of the national committee on immigration, W. Allen, K.C., of Winnipeg, which has made an exhaustive survey of the subject, has been presented and accepted.

Expressing the firm conviction that China was desirous of obtaining foreign capital and that it had no sympathy for Bolshevism, Tsum Chi, one of the Chinese delegates to the recent International Postal Congress at Geneva, reached Quebec recently on S.S. Empress of Scotland, en route for Shanghai.

Back from a six weeks' inspection trip in the United States and western Canada, W. R. MacIntosh, Vice-President, and George Stephen, Freight Traffic Manager, Canadian Pacific Railway, said that tourists' traffic to Vancouver, Victoria and the Rockies showed very satisfactory increases this year. They emphasized that there was no feeling of pessimism in the Prairie Provinces.

It is expected that His Majesty King George, or His Royal Highness the Prince of Wales, will unveil the Vimy War Memorial in 1932, stated Brigadier-General T. H. Hughes, of Victoria, chief engineer of the Canadian Battlefields Memorial Commission in France and Belgium. Interviewed on S.S. Montrose on his arrival in Canada recently.

"We manufacture 15 million pieces of toffee per day in Great Britain, but not enough of it comes into Canada and we are seriously considering the opening of a Canadian factory to cater direct to the Canadian people," said Sir Harry MacIntosh, head of the famous British candy firm of the same name, interviewed on his arrival aboard S.S. Duchess of Bedford at Quebec recently.

One of the most beautiful and costly displays in the recent exhibition at Toronto was the exquisite diamond replica of the first Canadian Pacific Hotel, the Royal York, in Toronto. To build this unique miniature which was valued at over \$300,000, more than 15,000 Ellis faultless quality diamonds were utilized. These were mounted on a framework of satin wood covered with the finest wax. The miniature was drawn true to scale and measured 15 inches high by 12 inches broad.

The farm of James H. Walker, at Raymond, Alberta, of which 70 acres were owned by Kharkov wheat, yielded 2,800 bushels of 40 bushels to the acre, says the Lethbridge Herald. This particular crop was produced on a summer fallow. The farm is diversified and rotated. Sugar beets do well on it and there is a flock of 2,000 sheep to help keep it in shape.

In a summary of the wheat situation in the Manitoba Free Press points out that wheat is ahead so high this year as to offset to a considerable degree the shortage in the crop. "Western Canadian wheat," it says, "has never reached so high a price in years." The present content of samples so far checked grade the highest that the West has known since the war.

Rebekah and Oddfellows Dist. Meeting

Visitors Delighted With Hospitality of Coleman Lodges—Sister Holton Elected D.D.G.P.

The annual district meeting of the Oddfellows and Rebekah lodges held last Friday in Coleman was the most successful in recent years.

The regular meeting of Victoria Rebekah Lodge opened with officers of Bellevue lodge in charge, and was later handed over to the officers of Pincher Creek lodge, who exemplified the Rebekah degree in a creditable manner.

Sister Evans, of Coleman, D.D.G.P. of Alberta Assembly, took charge of the district meeting, the roll call showing delegates present from Pincher Creek, Bellevue, Blairmore and Coleman.

The finances of the district were reported to be satisfactory and the membership and the order in general to be in good standing.

For the office of D.D.G.P. for the ensuing year, Sister Holton was elected by acclamation. Sister Oridland of Pincher Creek was elected district secretary treasurer.

Sister Evans thanked the members for the support given during her term of office, and asked that the same assistance be given the new officers.

Following the meeting, tables were laid for the banquet, which were beautifully decorated and loaded with all the good things to tempt the appetite. Several of the members expressed their appreciation in short addresses for the fine entertainment accorded by Coleman members.

The evening closed with a dance, which continued till 1 a.m. The general opinion was that it was the best meeting held for years.

Lieut. Meakings to Vegreville

After nearly 18 months in Coleman in charge of the activities of the Salvation Army, Lieut. Meakings has left to take charge at Vegreville, Alta. His successor will be Capt. Fowler, of Lacrosse, who will be assisted by Lieut. Zoutendyk, who has been here for several months. During his term here, Lieut. Meakings has kept the Army banner bravely flying and gained a number of friends for the Army in the Pass towns, who have greatly admired this young man's devotion to duty. A welcome is extended to his successor by all who appreciate the value of the Army's good work.

Everybody Needs Printed Matter

There is not a business you can name which does not require printed matter. It is one of the indispensable requisites of modern life. It is as indispensable to business as the railroad or the automobile is for transportation. Even to people not in business, the daily newspaper has become to be part of their daily life. In community life of the smaller centres the weekly newspaper has a definite place and were it not published it would leave a void. Even when business slumps, it helps to keep alive the spirit of activity and ambition. The printing industry is a vital factor in all phases of activity.

Lethbridge Herald Newswriters Meet

Enterprising Daily Is Host to Its District Correspondents in Southern Alberta

"It Serves the South" is a slogan familiar to the people of Southern Alberta, and immediately The Herald, Lethbridge's enterprising daily newspaper, is brought to mind. There is not a daily in the western provinces which so completely represents the territory it serves, and for years its district news has been a feature which has served to increase its popularity in the city and rural districts.

In order to instruct its correspondents to give better service to the communities which they represent, a newswriter's conference was held yesterday at the Marquis Hotel. Hon. W. A. Buchanan, president and managing director, welcomed the correspondents, and made some valuable suggestions on the Saturday magazine features of The Herald.

H. G. Long, managing editor, very interestingly pointed out the importance of keeping in mind a value of the proper balance being maintained in assembling and publishing current news.

D. O. Wight, publisher of the Cardston News, told how he covers his territory as a correspondent of The Herald.

C. F. Steele, district editor, under whose immediate supervision the district news features of The Herald have been developed, was the dynamic spirit of the conference, and imparted a wealth of useful suggestions on how correspondents may improve their service to their respective territories.

During the afternoon a visit to the plant demonstrated some of the manifold details of publishing a daily newspaper. The stereotyping of the forms for the final edition, and the starting of the fine new rotary press, added to the visitors' appreciation of the enterprise of the company. A 24 page newspaper printed at the rate of 36,000 copies per hour proves that Southern Alberta's daily is in the front rank when equipment is compared with much larger cities.

A banquet in the evening, given by The Herald, of which details are held over owing to lack of time, and a theatre party at the splendid new Capitol theatre as the guests of Mr. Shackleton, manager, completed a day of hospitality as entertainment which could not help but create increased good will and appreciation to The Herald which will always be a pleasant memory.

National Poppy Day Campaign

Armistice Day will soon be upon us, which is a day imprinted in the minds of all of us, not as being one of "national" importance but of "world wide" importance.

We owe to Canada's 60,000 men who gave their lives a solemn tribute as Canadians and we should all bring this to attention every year. November 11th is the day for this observance when the young nation of Canada will display its remembrance by wearing the Poppy.

Every Canadian or citizen in this glorious land of ours is asked to wear the Poppy which is emblematic of this tribute.

Mrs. W. Fraser of Sixth street has been in poor health for the past week, and was admitted to hospital on Tuesday. Her friends hope to see her around again shortly.

The National Value of Radio

When the automobile began coming into use 25 or 30 years ago, it was looked upon as a luxury for the rich, another means of providing for their entertainment and catering to their enjoyment, but not to be regarded as a new means of transportation for the great masses of the people. Yet within the short span of a quarter of a century the automobile has revolutionized our habits and modes of living, until today the family that does not own a car is the exception, rather than the rule. At first it was the common practice to criticize the farmer who bought a car; now it is recognized as a practical farm necessity. What was to be a plaything of the rich has become the most popular means of transportation, and is seriously challenging the railways as a means of freight for the shorter hauls. The automobile, too, has altered all preconceived ideas in road-building and the value and necessity of good roads.

Within even more recent years has come the discovery of the radio. This, too, was accepted at first as more or less of a plaything, something to provide pleasure in the form of musical entertainment in the home. Its value in this respect, especially in rural homes, and in towns and villages, not enjoying the advantages which the large cities possess in the way of concert halls and theatres, was quickly appreciated. Then came the broadcasting of grain and other market quotations, weather forecasts, live news bulletins, and information of general interest and value to the rural dweller, hours and days in advance of the time he would otherwise receive the same. As a result, within recent years, radio has been installed in tens of thousands of homes.

In a very notable way the value and influence of the radio has been extended in the last two or three years through the linking up of a number of stations through programmes of exceptional merit are made available to all parts of the continent, even the world. One such chain after another has been created, but beyond one or two attempts, notably the Diamond Jubilee broadcast from Ottawa, in 1927, Canadian listeners have not had the benefit of Dominion-wide Canadian programmes, but have had to depend largely on United States stations.

All this is now changed, and this year Canada is being favored with Dominion-wide broadcasts, sponsored by large Canadian corporations, equal in every respect to the best that is presented in the United States. These Canadian programmes are now available several nights every week and the finest symphony orchestras and artists of the large Eastern Canadian cities can be heard in Western Canada homes. Not only so, but some of the outstanding musicians of Great Britain are being brought to Canada to broadcast over these Canadian chains.

In the past when outstanding statesmen like Rt. Hon. Ramsay MacDonald visited Canada, a comparative small number of people in Ottawa, Toronto or Montreal had the privilege of hearing him. On his recent visit to Ottawa, when he was the guest of the Government of Canada, at a late dinner, hundreds of thousands of Canadians from Halifax to Victoria, listened to his inspiring address in the House of Parliament. His plea for international goodwill and world peace, his insistence that these could only be achieved through a "will to peace" on the part of the people themselves, was listened to by hundreds of thousands, and received by them as a direct personal message, couched in homely language, and reinforced with all the sincerity of which Mr. MacDonald is capable. In other words, the Prime Minister of Great Britain was enabled to talk, not merely to President Hoover and Premier Mackenzie King, but to untold millions of people in the United States and Canada.

The national, yes, international, value of such addresses cannot be correctly estimated. The radio has become one of the most powerful factors in breaking down the suspicions, the ill-will, the fears, which exist and develop across international boundary lines. The fact that statesmen can be heard to the masses of the people, their own and those of other nations, must prove a tower of strength to the cause of true democracy and better world understanding.

Even so, the radio is still in its infancy. What wonders it will yet unfold to us in five, ten or twenty years, can hardly be imagined. It may bring improvements so vast, including television with the broadcasting of moving pictures and current happenings, and other developments as to make the radio achievements of today seem very crude indeed.

An Interesting Collection

Valuable Documents Presented To
Library of Toronto University

A collection of historic documents, illustrations, maps, autographs and letters has been presented to the library at the University of Toronto by Henry Sprout. It includes the first example of typography in Upper Canada, a speech made by Sir John Graves Simcoe, a proclamation made at Newark in 1785, and letters from Sir Isaac Brock, William Lyon Mackenzie, Bishop Strachan and many other Canadians famed in history.

Origin of the Farthing

The English farthing gets its name from "fourth thing." Pennies hundreds of years ago were made of softer metal than today. They were also marked deeply across and down. This was that they might be broken in two, if something was wanted. It was only a "half penny." This again could be broken for something costing the fourth of a penny.

Earache

Heat an iron spoon. Place four drops of liniment and four drops of sweet oil in it, mix and put one or two drops in the ear.

W. N. U. 1809

A New Musical Device

"Theremin" Has Tonal Quality
Similar To Cello Or Violin
Now you can be a musician without ability.

All that is necessary is to hum a tune, wave your hands over a gadget created by the Radio Corporation of America, and you get a fine musical effect.

The new device is called the "Theremin" and has a tonal quality similar to the cello or violin. It was displayed at opening of the radio world's fair recently, having a place in the exhibit because it is operated by two antennae.

LIFE WAS A BURDEN

Health Restored Through the
Use Of Dr. Williams' Pink
Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and further says, "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a harder supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. I am now up and about and I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price \$6c. Try them today.

Demonstrates New Form

Of Rejuvenation Operation

American Surgeon May Throw Light
On Eternal Quest For Youth

Man's eternal quest for youth held the attention of a group of surgeons attending the American College of Surgeons' clinic recently, after Dr. V. D. Lescapelle, Chicago, demonstrated a new form of rejuvenation operation. Although the college has not given official sanction to this type of surgery, the operation is causing comment.

Phlebopneumostomy, meaning "vein to vein" in the surgeon's vernacular, forms the basis of Dr. Lescapelle's new technique. The surgeon "joins" certain veins in the lower abdomen, causing the blood to follow a different course and thus, it is claimed, revitalizing the glands. The operation does not involve the transplanting of glands or the use of glandular extracts.

Dr. Lescapelle, in 1922, performed a rejuvenation upon a Harbord, F. M. Cornick, prominent Chicagoan. The surgeon said that his method had passed the experimental stage and has been used on many patients.

Dr. William A. Osborne, Melbourne, Australia, dean of the faculty of medicine and chairman of the American research committee of the University of Melbourne, was amongst those awarded honorary fellowships.

Feet Sore? Use Minard's Liniment.

A Big Yield

The farm of George Shields, east of Raymond, Alberta, yielded fifty bushels of Marquis wheat to the acre on a ten acre field. The wheat graded No. 1 locally. Several other farmers of the neighborhood have yields of 40 bushels to the acre.

Her Little Boy Was Very Ill With Summer Complaint

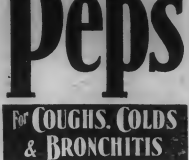

Mrs. Ray Fisher, Leleat, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"Discouraged and in despair I sent for a bottle of DeFowler's Ext-Of-Wild Strawberry. I had used, but to my surprise I noticed a change after he had taken a few doses, and before the bottle was half used he was the same happy, healthy boy he was before he took sick."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

The Breathable Tablet

Far North Is Favored

Air Mail Rates To Arctic Cheaper, On
Continents

To Canada's far northern outposts, Akivik and Herschel Island, once absolutely remote from communication of any kind during the long, white months of winter, aeroplanes, manned by aces of treacherous aerial trails, soon will be winging their way on regular schedule, carrying to the hunter, hunter and trapper, mail and merchandise from the "outside" and returning speedily with the products of the great wilderness — furs — for the world markets.

Commenting on the proposed aerial service, which is scheduled to start with the departure of the first plane from Edmonton on November 16, northward bound, Thomas Bower, postmaster in Winnipeg, points out the new air-mail parcel rates will be the cheapest service of the kind in America. There is, of course, no competitive service to consider and this is the paramount factor in the low rate. It will be cheaper to send a parcel from Winnipeg to Herschel Island by air than from Toronto or Montreal. The rates range from 50 cents per pound to Fort Providence to \$1.00 per pound to Herschel, as compared with the charge of \$1.55 from Eastern Canada.

To the distant posts of Akivik and Herschel the air-mail schedule calls for three flights, November 26, January 21, and March 25, while to forts and trading posts "in between" weekly delivery service, depending on distance, will be maintained.

Ready-Made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like, it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

A Tip To Fishermen

All Fish Color Blind and Gaudy Flies
Do Not Attract

That all fish are color-blind is the assertion of Dr. Thomas Hall Shasted, of Superior, noted wild life research worker.

"The fisherman who attempts the lure of the brightly colored trout flies," Dr. Shasted declared, "is foolishly working against an established principle of nature. Neither black nor white exist to the wary brook trout or grayling. All colors to them are a dull gray wall."

Sir John Martin Harvey

Appearing In Western Canada In
"The Lowland Wolf" and "In
Only Way"

For his latest success, which will be presented at the Grand Theatre, Regina, on Monday and Tuesday, November 4th and 5th, Sir John Martin Harvey has gone to the modern Spain. The title is "The Lowland Wolf." From the pen of Angel Guinard, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tours.

The present tour of Sir John across the Dominion will be the sixth All-Canadian Tour that the actor has undertaken. On this occasion he will give the farewell performance of his greatest play "The Only Way," which has won so deep a place in the affections of Canadian players. There is little need to dilate upon the performance of Sir John Martin Harvey as the dissolute Sidney Carton, who lays down his life for the lady he loves. But probably all those who have not seen the play, and also all those who have already seen it, will be present at these farewell performances during the present Canadian Tour. Miss de Silva will appear in her original part of Mimmi, and Sir John will bring with him a particularly strong Company, which includes many favourites who have already made themselves popular in the Dominion, and will be warmly welcomed when they appear at the matinee and night of Wednesday, November 6th.

Pacific University, Oregon, was founded in the pioneer days of 1849.

Stop falling hair with Minard's Liniment.

Made North-West Passage

Attempt Of Hudson's Bay Fur Trade
Ships Was Successful

Three ships engaged in the fur trade and owned by the Hudson's Bay Company have between them forced the dreaded northwest passage, according to news reaching the Hudson's Bay Company offices at London, England. The ships are the "Bay of Chimo," "Fort James" and "Fort MacPherson." The "Bay of Chimo" left Vancouver last July and sailing through the dangerous Behring Strait, reached Point Barrow on July 24, and Cambridge Bay on South Victoria Island on August 25.

Last year the schooner Fort James, under the command of Captain Bush, sailed from Montreal and having wintered in the ice, began with the coming of spring a long fight to reach King William Land. This vessel was joined there by the "Fort MacPherson," which cruises within the Arctic Circle as a supply ship for trading posts and exploration purposes. The Fort MacPherson had sailed from Cambridge Bay, the farthest point reached by the "Bay of Chimo."

In this way, three vessels contracted to do what would have been impossible for one alone to accomplish. During the winter, locked in the ice, those aboard the "Fort James" endured great hardships and for most of the time were actually prisoners in the frozen waters. It is thought that the successful attempt to force this passage may mean that skins will be brought more quickly to Britain than in the past. An official of the Hudson's Bay Company declared that it remains to be seen whether such a journey is a commercial proposition. If this proves to be the case, the dangerous voyage from Vancouver through Behring Strait will be avoided.

High Grade Crop

According to the manager of the Canadian Wheat Pool, which markets the larger percentage of the wheat crop of Canada, most of this year's crop is grading No. 1 and No. 2, and there is so little of the lower grades passing through the elevators that hardly enough of grades 4, 5 and 6 can be found to make up composite samples for grading purposes.

Mothers can easily know when their children are troubled with worms, and if they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

To Establish Sheep Ranch

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Pinnang, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Wife (who has caught her husband squandering a penny on a fortune-telling machine): "H'm! So you're to have a beautiful and charming wife, are you? Not while I'm alive, Horace—not while I'm alive."

Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore can not disturb the digestion. It acts in two ways:

(1), The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

acts 2 ways at once

Discovers New Anaesthetic

Toronto Doctor Mayes Important
Announcement At Meeting
In Chicago

Cyclopropane, a new anaesthetic gas which does not interfere with normal functioning of the body, was described by G. H. W. Lucas, of the Toronto University, Department of Pharmacology, at the eighth annual congress of anaesthetists in Chicago.

Lucas said the gas was in an experimental stage, having been administered only to animals as yet, but expressed great hopes for its early adoption by hospitals.

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

The Oldest Barber Shop

Probably the oldest barber shop in the world is run by a barber named Pesta, at Islington, London, England. The walls, ceiling and floor are covered with thousands of small pieces of glass, painted all colors of the rainbow and in all different shapes. The total number of pieces of glass is about quarter of a million.

Feldspar In Canada

All the feldspar mined in Canada is of the potash variety known as orthoclase or microcline. Soda feldspar (albite) is known to occur but there is little demand for this variety and none is mined.

Alberta Wheat Pool Elevators

The Alberta Wheat Pool's 468 elevators are valued at \$6,000,000. Eighty-five elevators were built this year and 35 purchased.

Needless Pain!

Nowadays, people take Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Aspirin tablets are absolutely harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuritis, neuralgia, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but

you can always turn to an Aspirin tablet for relief. Aspirin is always available, and it never fails to help. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

STOCK EXCHANGE STAMPEDE WORST PANIC SINCE 1914

New York.—The remarkable era of wild speculation in stocks which has swept over the country during the past five years, came to a climax in the most terrifying stampede of selling ever experienced on the New York stock exchange and other leading securities markets.

Not since the war panic which resulted in closing the exchange for 17 weeks in 1914, has Wall Street seen such a dark and trying day, and never in financial history have the markets been thrown into such a tumult. It appeared for a time that the stock markets would be unable to face the situation and that trading would have to be suspended, but the leading exchanges saw the ordeal through, although a few floor traders collapsed and had to be aided from the trading rooms.

The situation became so grave that a hurried meeting of leading bankers was called at the office of J. P. Morgan and Company, and a reassuring statement issued from the conference by Thomas W. Lamont, one of the Morgan partners, finally checked the sickening drop of stock prices and saved the market from a complete impasse.

Scores of important stocks tumbled from \$15 to \$70 a share, paper values vanishing at the rate of tens of millions of dollars, when the bankers' statement prompted large operators who were reaping millions in selling the market short, to cover their commitments, and prices of many issues rebounded.

The stocks of six leading corporations at their low levels of the day on the New York stock exchange showed a loss in total market value of nearly \$1,000,000,000. The market value of the total outstanding common stock of General Motors showed a loss of approximately \$350,000,000, that of American Telephone and Telegraph Company \$275,000,000; Radio Corporation of America \$150,000,000; U.S. Steel \$78,000,000; Standard Oil of New Jersey \$68,000,000; General Electric \$64,000,000.

Total sales on the stock exchange reached the amazing figure of 12,894,680 shares, surpassing by more than 50 per cent. the previous record of 8,246,740 reached in March 26. The ticker quotations service fell hours behind transactions and traders who were unable to get quotations from the floor proceeded blindly, save at intervals when a few stocks were sent out through the bond market ticker.

Closing prices presented a picture of havoc among quoted values, hundreds of shares selling at or near low levels for the year, and from \$20 to more than \$100 below the record prices reached in recent months. Nevertheless the price level at the time of the closing gong was found to be substantially above the bottom levels of the day, approximately half of the losses of the terrifying early hours of the day having been regained.

Attempts Life Of Italian Crown Prince

Assailant Said He Intended To Fire Into Air

Brussels, Belgium.—A shot was fired at Crown Prince Humbert, of Italy, as he held a wreath on the tomb of Belgium's unknown soldier. The prince, uninjured, ignored the incident, but police arrested the assailant immediately. Infuriated, the crowd stormed the police station, demanding that the man be lynched. The prince's assailant told the police he is an Italian named Enrico Drosio, and was born in 1904. He said he had intended to fire into the air as a mark of protest. He arrived from France and was in possession of identification papers from that country.

The attempt was attributed in Rome, to resentment of anti-Fascists in Brussels against condemnation and execution recently, at Pola, of Vladimir Gortan, Yugoslav "terrorist," who fired on a line of voters last election day.

Will Release Donkubobors
Ottawa.—Thirty Donkubobors now in jail in Saskatchewan, are to be released on ticket of leave, Hon. Lucien Caumon, solicitor-general, announced on request of Hon. M. A. MacPherson, attorney-general of Saskatchewan.

The Chinese Free Masons of the World in their convention at San Francisco pledged \$100,000 for a peace temple in Shanghai.

W. N. U. 1809

Urges Free Speech

Best Way To Deal With Communists
Says Miss McPhail

Toronto, Ont.—Miss Agnes McPhail, Canada's only woman member of parliament, in an interview referring to trouble between the local police and Communists, said:

"My opinion of the way to deal with the matter is let the Communists have free speech. In the words of some one who spoke about Hyde Park, in England, Queens Park might be a real safe valley for Toronto exuberant Communists. The police have been making themselves the laughing stock of all thinking people. It is the silliest business I have heard of for some time."

Renews Arts Competition

Eight Prizes Are Again Offered By
Lord Willington

Montreal.—Lord Willington, Governor-General of Canada, has informed Sir Arthur Currie, principal of McGill University, by letter of the renewal of the Willington arts competition, inaugurated last year. Eight prizes in all are offered with a view of furthering and encouraging competition of art and literature. Four prizes of \$100 each are offered for competition in music, two in literature of \$100 each, one in painting of \$100, and one prize in sculpture of \$200.

Receive Severe Sentence

Chinese Dealers, In Narcotics, Given
Long Jail Terms

Vancouver, B.C.—Traffickers in narcotics received severe sentences at the close of the fall assizes, when Mr. Justice D. A. Macdonald sentenced Henry Chow, 25-year-old Chinese, to seven years in the penitentiary, a fine of \$1,000 and 10 lashes. Chow was convicted of having cocaine and morphine in his possession.

Nip Gar, alias Jiang She, 55-year-old Chinese woman, convicted of a charge of selling opium, was sentenced to seven years imprisonment and fined \$1,000.

Will Investigate Tariff

Advisory Board To Discuss Applying
To Cotton Goods

Ottawa.—The reference from the Ministry of Finance to the tariff advisory board to investigate the fifty per cent. tariff against cotton goods from the United States, which was applied on cotton goods from Britain coming to Canada, will open here on November 7. This was decided by W. H. Moore, chairman of the board, following a conference lasting all forenoon between members of the board and representatives of the British high commissioner's office.

League Receives Notes

Geneva.—The secretariat of the League of Nations has received from the Canadian Government for registration and publication, copies of notes exchanged August 2 and September 19, 1928, by Canada and the United States with reference to an agreement for the exemption of shipping companies from income tax.

Less Unemployment In Britain

Montreal.—While unemployment is still a serious question in Great Britain, it is not so manifest as one might expect, according to A. T. Weldon, vice-president of the Canadian National Railway who has just returned from a trip abroad. The country as a whole, has the appearance of growing prosperity.

Will Be Guest Of Honor

North Battleford, Sask.—Premier J. T. M. Anderson will be the guest of honor at the annual rally sponsored by the Board of Trade, which will be held here Tuesday, November 12. More than 2,000 people attended the function last year when farmers from all parts of the district came in for the day's entertainment.

Relief Fund For Miners

London, England.—The fund for relief of distress among the families of unemployed coal miners has been reopened for the coming winter. Various grants have already been allocated and altogether about \$2,500,000 will be spent. The distribution of relief will take the form entirely of clothing.

Sailing November Thirtieth

Tokio.—The Japanese delegation to the London naval conference in late January, will sail from here for Seattle, on November 30, proceeding from that city to Vancouver for a visit with President Hoover and Secretary Stimson before going to London. Munich, Germany, was founded by the monks.

To Take Over Branch Lines

Statement Made That C.N.R. Will
Operate Cranberry To Sherriett-Gordon Branch

Winnipeg.—Announcement is made that the branch line from Cranberry to the Sherriett-Gordon mine at Cold Lake will be taken over by the Canadian National Railways at the end of October.

It is expected that when the branch is taken over there will be a tri-weekly passenger service to and from The Pas and a daily freight service. H. MacLean, president of the Dominion Construction Company, stated that work on the branch had been completed well ahead of schedule.

Local mining men believe that the taking over of the line by the C.N.R. will lend great impetus to mining in Northern Manitoba. Work on the promising prospects have been held up, they state, because of the exorbitant cost of taking machinery into the Cold Lake mining area by winter trails.

Believes Draft Satisfactory

Manitoba Cabinet Discusses Agreement
For Return Of Resources

Winnipeg.—Tentative draft agreement for transfer of natural resources will probably be satisfactory to Manitoba, believes Hon. Charles Stewart, Minister of the Interior. The Dominion minister conferred with members of the Manitoba cabinet on the first occasion for informal discussion of the draft.

With certain modifications suggested at the conference, the draft was considered to meet with the approval of the government. Every member of the cabinet was present, with the exception of Premier John Bracken, who is absent in the Old Country. Application of the Manitoba Power Company for extended pulpwood limits is to be considered at a conference to be held on Mr. Stewart's return from the west.

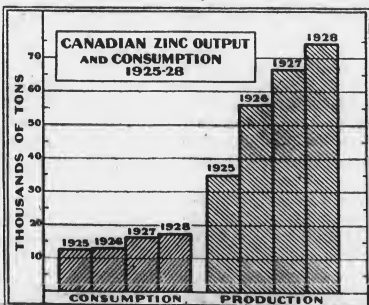

ITALIAN MINISTER TO CANADA MAY BE APPOINTED

Ottawa.—The appointment of an Italian minister to Canada was forecast in cable dispatches received here, that Agostino Ferrante Di Ruffano, Italian consul-general here, had been named to Philadelphia and that he will be succeeded in Ottawa by Count Delino Rogeri Di Villanova, counsellor and senior assistant at the Italian embassy in London, England.

The dispatches forecasting that Italy would ultimately follow the example of the United States, France and Japan by appointing a minister to the Dominion has caused considerable interest in government circles. Some time ago there was a similar report with respect to Germany. The Department of External Affairs would make no official comment with regard to either report. However, there is a general impression that Canada's diplomatic services abroad will be extended. Germany and Italy appear as likely countries with which Canada would next exchange ministers.

Marquis Ferrante, in an interview, said that he knew nothing of reports emanating from London that his government would appoint a minister to Canada. "It is quite possible," he is quoted as saying, "but it may not be for some time yet."

ZINC PRODUCTION IN CANADA

Zinc is one of the metals of which Canada now produces a heavy exportable surplus, the last few years having witnessed a rapid increase in the spread between domestic production and consumption. According to figures published by the American Bureau of Metal Statistics, the Canadian output of zinc last year amounted to about four times the domestic consumption. British Columbia accounts for much the greater part, with Quebec as the other main contributor. Incidentally, the growth of production has converted zinc from a minor to a highly important item in Canadian mineral production, the value of the output last year exceeding ten million dollars.

GEOLOGIST RETURNS FROM NORTH

Fears for the safety of Geoffrey Gilbert, above, geologist with the Dominion Explorers, have been allayed by the news of his arrival at Fort Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Punch" Dickens brought him and three others out during an unsuccessful flight to locate the MacAlpine party.

Spirit Of The West

Nothing To Worry About, Newspaperman Tells Easterners

Toronto.—"The spirit of the west is steady and hopeful," said Thos. Miller, of the Moose Jaw Times, here for the meeting of the directors of the Canadian Press. Mr. Miller is a well-known western newspaper man and was a charter member of the Western Associated Press when it started in Winnipeg, 22 years ago. Also he farms himself on a considerable scale, being interested in three sections, nearly 2,000 acres, under cultivation in Saskatchewan.

This is not a bad economic crop for the west," he said, "with 250,000,000 bushels of high-grade wheat. There was a great saving in operating cost, because we did not import a single harvester, farmers garnering the crop with their own labor, the combine harvester now widely in use being in part responsible. Of course, there are cases of individual hardship, some farmers not even saving seed, but these are being taken care of by municipal and farmers' organizations, and it is unlikely it will be necessary to ask Ottawa for financial help as was the case some years ago."

"We expect to get higher prices, and the sentiment of the west is behind the Wheat Pool in refusing to sell at bargain rates, proof lying in the fact that farmers not in the pool are also holding wheat for a rising market."

"Looking to next year, there were good rains east of Regina a fortnight ago, but not in the Moose Jaw district. The astonishing thing this season has been the remarkable showing on summerfallow seeded to spring wheat. Not a drop of rain fell throughout the growing season, and yet a six to 12-bushel crop was reaped. Our prairie soil is not like your soil down here, because when we get rain it goes into the ground and does not wash away. It is a remarkably open season, and we may get good rains yet, but if we do not there will be snow and frost seepage in the spring and good rains in May and June will put the crop on its feet. But it is too early to talk about the 1930 crop. Tell people in the east there is nothing to worry about in the prairie west."

Plans For Convention

Dominion Breeders' Association To
Meet In Regina Next Month

Regina.—Preliminary arrangements for the convention of the Dominion Breeders' Association, to be held in Regina, on March 24 to 28, 1930, were given attention by the Saskatchewan Livestock Board, at a recent meeting. A committee to take charge of these plans was appointed. It consists of C. M. Leamouth, J. G. Robertson, D. T. Elderkin, and R. A. Wright.

These Canadian Breeders' Association meet in Toronto customarily, having met in the west previously only once. That was in Calgary a number of years ago. They are meeting in Regina, in 1930, on the invitation of the Saskatchewan Livestock Breeders and the Regina Board of Trade.

New Claimant For Earldom

Third Man Is Disputing Claim Of
Alberta Rancher

London, England.—The dispute over the right to the earldom of Gilmont, and the extensive estates near Ringwood, in Hampshire, has been complicated by the appearance of a third claimant, namely, R. Power, retired captain of Haydock, Lancashire. He claims to be a descendant of Hon. Philip Troward Percival, a brother of the fifth earl, Frederick Percival, of Priddis, Alberta, is at present disputing the earldom with James William Percival, 66-year-old baker of North London. The Alberta man was believed to be the heir presumptive during the late earl's life and on the death of the earl came to England, and for a brief time occupied the estate.

Freight Rates Hearing

Board Of Railway Commissioners To
Consider Cases East And West

Ottawa.—Two important hearings before the Board of Railway Commissioners will likely take place this fall, when the request of the maritimes for lower grain rates over the transcontinental railway and that of Alberta in connection with coal rates will be presented.

No dates have yet been fixed for these hearings, and as yet no formal application has been received from the maritime provinces. It is expected, however, that these will be set within the next day or so.

Have No Political Rights

Mexico City.—The Department of Interior has ruled women have no political rights in Mexico, and hence cannot vote in the presidential elections November 17. Its ruling was in answer to a query of women's clubs in the state of Coahuila.

GRAIN STORAGE CRISIS BELIEVED TO BE NOW OVER

Winnipeg.—The grain storage crisis has passed. Yawning bins at country points contain more than enough storage space to accommodate the unmarketed portion of the 1929 crop. Farmers' deliveries are falling off, being hampered by the movement to the lake head. The lake head bins are being kept level by grain boats steaming steadily eastward.

Attentive observers of the western storage situation regarded these omens with relief. They looked back in a car-rational move during the first half of October by both the Canadian National and the Canadian Pacific railways; they remembered the fear a month and more ago that Port Arthur and Fort William elevators might soon be filled to overflowing and that the yards would be crammed with loaded grain cars.

Just 60,000,000 bushels of wheat remain to be hauled to the country elevators by prairie farmers, it was estimated. And aggregate country storage on October 23 after a drop for the second successive day following continued rain for weeks stood at 86,640,000 bushels. The bins still have capacity for more than 72,000,000 bushels, allowing range for 12,000,000 bushels of undelivered grain in addition to the wheat.

With grain deliveries falling off at present, it is considered only a matter of time before movement to the lake-head will show a corresponding drop. Handlers of the grain are desirous of having no more grain at hand in terminal elevators after the lake shipping season closes in November than is necessary to accommodate their winter needs. It is more economical storage in local elevators to the greatest possible extent.

MANITOBA MAY SOON CONTROL OWN RESOURCES

Ottawa.—Rapid progress has been made in regard to the natural resources agreement between the Dominion and the province of Manitoba in the last few days.

It was learned from cabinet sources that the Dominion has appointed O. M. Biggar, K.C., formerly the chief electoral officer of the Dominion, to act with A. B. Hudson, K.C., representing the province of Manitoba, in the actual drafting of the agreement which will be submitted to parliament and to the provincial legislature at the next session of these bodies.

Prior to the appointment of these two lawyers to act as a committee, it had been stated that the proposal agreement already was in draft form. It was now stated that this was not the case. The officials of the interior department, apparently had drawn up a rough outline of an agreement, but had not attempted to cast it in final form. Mr. Hudson and Mr. Biggar, it is understood, had several lengthy conferences in Ottawa last week and this week, and while neither of them would discuss the matter, there is good ground for the belief that very rapid progress was made, and that except for a few points which must be submitted to the two governments for decision, the agreement is rapidly taking on its final form.

Just what these special points involve is rather difficult to discover. Cabinet ministers, in touch with progress being made intimately recently, think there was no doubt if the water powers would be returned to Manitoba, and if large areas of timber ought not to be retained by Ottawa. It was not suggested that the Dominion would insist in these matters, or attempt anyway to bring pressure upon the government of Manitoba. The point was, rather, that Manitoba might voluntarily agree to these resources being controlled in the future from the capital.

Successes Dean Ling

Saskatoon.—Dr. T. A. Wilson, head of the English Department of the University of Saskatchewan, has been appointed to the educational council of the province, succeeding Dean G. H. Ling, also of the University. Premier J. T. M. Anderson announced. The appointment is effective immediately.

Indian Wins Ploving Match

Ottawa.—A 17-year-old Indian boy showed modern agriculturists how to do their stuff recently, and won first prize in the international ploving contest against 369 opponents. George Barlow was the winner. He owns a farm, which he bought himself at Milledale.

Will Meet As Friends

London, England.—Two war opponents in German East Africa, General von Lettow-Vorbeck and General Smuts, will meet at a dinner of British and South African soldiers, sailors and airmen in London, December 2. Smuts will propose a toast to his former opponent.

Kite Flying Record

Lancaster.—The world's record for sustained kite flying was broken at New Holland by John Garman and Treuman Diem, both 13, whose kite, the "Spirit of New Holland," had remained in the air 52 hours and 20 minutes.

Sails To New Fields

Gull-Curl After A Big Season To
Tour The Orient

Regina.—Madame Gull-Curl will sing at The Armouries, Regina, on Wednesday, November 6th, before she sails to a new field, almost the final one on the globe that her rare voice and the words of her songs have charmed. The diva's tour of the cities of Japan and China, with concerts also at Manila, in the Philippines, starts in February and ends in early summer.

For a number of years letters have been coming to Mrs. G. V. S. Salter, managers of Madame Gull-Curl, insisting that the diva be spared by America long enough to tour the Orient. It was exactly the same, this long and positive insistence, before the diva made her tour of British India and later made a still more extended singing journey to Australia and New Zealand.

This season again starting in early October, the famous singer is booked solidly in concert for November and December. Again in January and the opening of the season close in November, the diva is engaged for her usual opera appearances at the Metropolitan. Then comes the Gull-Curl tour in lands on which the sun rises first.

NOTES AND COMMENTS

Alberta Development Board, a non-profit making organization, makes an appeal that well might be heeded, in stressing the importance of buying goods made in Alberta. It states: "It is only by consistent co-operation on the part of everyone that we can develop sufficient business within the province to keep everyone employed. Display Alberta Made Products in your windows, on your shelves and on your counters. You of course, realize that some of the farmers' money comes from workers in the industries of the cities and towns, and that the produce of the farm is naturally sold in the latter. It is merely keeping the ball rolling and that is what we are after all the time."

"Think only in terms of pennies, and you'll never make a million," states George McManus, the clever cartoonist who delights millions with his daily comic strip "Bringing Up Father." As an illustration he states he has made a million, but the joke is that instead of making it for himself he has made it for the purveyors of corned beef and cabbage by increasing its popularity. Surely this is a striking demonstration of the power of advertising.

Money in large measure controls. The spectacular stock exchange crashes demonstrate it. As long as money was obtainable for speculative investment in all kinds of shares, prices continued to rise. Wise men said it could not continue, but many not so wise heeded not the advice. Bankers decided the time had come when no further money was available for speculative investment, with the result that once selling began to deflate the fictitious value of stocks, a panic ensued. Once again illustrating the homely old phrase, "What goes up must come down," no matter if it be the wreckage from a gun-powder explosion or the prices of shares which rise above a normal value.

With so many avenues for safe investment, people of limited capital, are tempting fate by looking for a big return. If they are willing to take the chance and rely on their own judgment, then it is nobody's business but their own. They take their medicine. And this time it has come in good stiff doses.

If we were to have a real old-fashioned winter, with temperature many degrees below zero and lots of snow to buck, it would probably have a beneficial effect on the coal industry. Just now it is a case of hanging on, and tightening up the belt till better times arrive. Circumstances over which man has no control cause everybody inconvenience. The farmers experience it when they have dry years. This in turn affects all other lines of business. Railroads require less coal, which has a direct effect on the industry of this particular section. British Columbia coal mines, it is reported, are sending fourteen carloads from different mines to be subjected to tests at Ottawa, to find if pulverized fuel will enable coal to regain the market which has been lost to fuel oil. Tests which have been made indicate that pulverized fuel will show a lower cost in generating steam than fuel oil. This is news which sounds pleasant to those whose livelihood depends on the coal mining industry.

Cities or towns that have attained prominence in Western Canada owe their progress in large measure to the progressive and energetic spirit of their business men. Through Boards of Trade and other organizations they have worked as a unit for whatever objective may have been decided on. It may have been a public building, or a branch line of railway, new industries or other projects in the interest of the city. The status of these cities or large towns, if their early history be delved into, and even their present-day progress, is largely owing to the time and energy which business men's organizations put into their activities. Every small town can take a leaf from the book of towns or cities which loom prominently before them. Truly it has oft been said "Without vision the people perish," and the same applies to a community as a whole. But the vision must be seen in the first place by business men of the community. They must necessarily be the leaders if a town is to progress, and there isn't a town that cannot be improved and a better community spirit engendered in the hearts of its citizens. It takes time and energy, but the results are worth it. But a few cannot do it; it requires the united support of business men in a community.

When you buy advertising space you are buying a valuable thing. You are buying an audience to the public. If you fill your opportunity with commonplace and verbal trash, you cannot blame the public for running you down in business. You have your chance through the public press of reaching the thing you are after—the ultimate dollar, nickel and penny in the pockets of the public. The public responds when the story is told in plain figures.—Cranbrook Courier.

Atwater Kent Screen-Grid Radio

ALWAYS FIRST with proved improvements, Atwater Kent now introduces Screen Grid Radio. It means the clearest flow of pure tone quality that you ever heard from a radio set. It means new power to reach far away stations—new sensitivity—new needle-point selectivity to separate the stations and pick out the one you want. New velvety depths and new heights of tonal perfection.

Through the magic of this Atwater Kent Screen Grid Radio, the voice of radio in all its beauty comes to you clearer, finer, farther than ever before—with mighty volume, if you like, or with the intimacy of a softly played guitar.

A Radio truly worthy of the finest home

How To Keep Young

Eat Less, Sleep More, Drink Water, and Laugh

An aged New York man, who has led a busy life, and a good one to boot, offered the following recipe on how to live long:

"When you get old, eat half as much, sleep twice as much, drink three times as much water, and laugh four times as much."

The advice is no doubt good. It recognizes the psychological factor as well as the material. Laughter is one of the most valuable emotions of humanity. It has a physical effect on the body by stimulating certain abdominal muscles, and it has a mental reaction which is a tonic to one's outlook on life.

People growing old, who have not the physical capacity for enjoyment and recreation that they once had, are inclined to sit down and dwell on the past and to contemplate the future somewhat morbidly. The way to keep young while growing older is to read light or amusing literature and to associate with people who have cheerful natures.

As for the other items of advice, it would be well if all young or middle-aged people ate less than they do, slept a bit more and drank more water.

Watch your eating, drinking and sleeping and you will continue young until you are quite old.

WORLD HAPPENINGS BRIEFLY TOLD

The Royal Canadian Mounted Police have the right to enforce the Manitoba liquor laws, Magistrate Hidayar decided in the case of Alfred Charnault, at the Pas.

John M. Allen, Brandon, and Lachlan McNeil and James Carruthers, Winnipeg, have been named Manitoba members of the Canadian Farm Loans Board.

While his plane dived to earth in a tall spin, Lieutenant John Seligman, army pilot attached to Mitchell Field, dropped more than 2,000 feet with a parachute and escaped with only a wrenched ankle.

Losses suffered by the government of British Columbia on land settlement schemes launched since the war will total \$3,279,000, according to an estimate prepared by special auditors who have been making an intensive investigation of the province's finances.

Canadian surgeons who accepted the fellowship in the American College of Surgeons, included James E. Mason, Stettler, Alberta; Frank T. McNamee, Kamloops; Cyril Stanley Williams, Trail; George P. Eawden, Moose Jaw, and Samuel Harvey Corrigan, Lacombe, Saskatchewan.

A noted figure in Canadian military circles died at Quebec in the person of Major-General Alfred O. Fages, former officer in command of the Canadian training camp at Valcartier, Quebec. At the close of the Great War, Major-General Fages retired on pension.

Of the candidates examined by the radio branch of the Department of Marine and Fisheries, during the month of September, those successful in obtaining commercial certificates of proficiency in radio-telegraphy, included R. W. P. C. Maylor, Vancouver, and L. H. Perrais, Regina.

From the Arctic to Cuba by canoe—that is the plan of Charles Plain-shank and his two young sons, Izzy, 9, and Anthony, 8. More than six months ago, the family of three went north from The Pas, Man., and since then they have journeyed 3,500 miles by dog sled and canoe.

Direct diplomatic relations between Canada and Japan were established when Hori-Temaha Tokugawa presented his credentials at Government House, and at the Department of External Affairs. In a brief ceremony the letters of credence were read and the Japanese minister welcomed at Ottawa.

Has Furthered Understanding
Dr. Nicholas Murray Butler, president of the Carnegie Endowment for International Peace, told the Institute of International Law, at New York, that "Frederic Macdonald and President Hoover, in their recent conferences did much more toward furthering an understanding between their nations than could have been done in 40 years of diplomatic procedure."

Regina Building Operations
Building operations in Regina continue uninterrupted. Permits up to the end of September amounted to about \$90,000, which is more than double the figure for the similar nine month period of last year.

The title of Rabbi is accorded Jewish scholars of eminence as well as to the ministry.

British Industries Fair

Canada To Be Well Represented At Fair To Be Held February 17th To 28th

The Deputy British Trade Commissioner announces that the sixteenth annual British Industries Fair will be held next year from February 17th to 28th, inclusive, at London and Birmingham, England. The two sections are complementary to one another, the whole forming the British Industries Fair.

The London section of the fair, which is organized by the British Government Department of Overseas Trade, will be held for the first time in its new home at Olympia. Canadian buyers who have visited the fair in the past will remember that for the last few years it has been held at the White City, in London. Owing to the growth of the fair it has been found that the White City buildings are not now suitable. It has therefore been decided to move the fair to Olympia, which is being especially enlarged for the purpose of the addition of a four-story building. The new building will not actually be completed until the 1931 fair, but two floors, in addition to the existing building, will be ready for occupation by February next. By means of bridging the galleries and other reconstruction work, there will be ready for the forthcoming fair a large two-story building which is believed to be the largest of its kind and size in the United Kingdom. Up to the 12th of August last, 800 United Kingdom manufacturers had applied for space at Olympia. Although no definite number is available, it is believed that the Applications for space at Birmingham have been made by approximately 500 firms.

The Empire Marketing Board, which is organized under the auspices of His Majesty's Government, will again stage a representative exhibit of food products of the Mother Country, the Dominion and Colonies, and also of the raw materials of the Empire. This exhibit will be given a prominent position on the ground floor of the existing main hall at Olympia. In addition to this there will be a separate exhibit by the Canadian Government, and it is anticipated there will be a representative Canadian Manufacturers' section.

Many Canadian buyers are expected to visit this great national fair. The most prominent British firms in all lines of manufacture will be exhibitors. The exhibits are grouped by trades, so that a buyer can go to any section in which he is interested and inspect it without wandering over the whole of the fair building to discover any particular article or firm.

Canadian buyers who visit the fair each year have on numerous occasions drawn attention to the time which they have saved by a visit to the fair. By such a visit they avoid the necessity of having to travel over the United Kingdom to purchase from the various manufacturers in whose goods they are interested. The schedule of exhibits in both the London and Birmingham sections cover practically every article of United Kingdom manufacture. Full information can be obtained from the British Trade Commissioner, 703, Royal Bank Building, Winnipeg, who will be glad to issue invitations on behalf of the British Government to business men who contemplate making the trip.

Research Work Necessary

The investigation of deposits of natural sodium sulphate (Glauber's salt), in Western Canada, by the Mines Branch, Department of Mines, has proven up tonnage of hydrous sodium and magnesium sulphates in excess of 100,000,000 tons. The nature of the salts is such that a large amount of research and experimental work in semi-commercial and commercial plants is necessary in order to devise proper methods of harvesting and drying the salts.

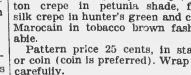

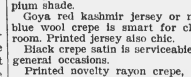

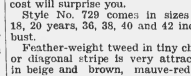

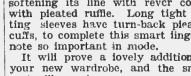

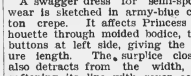

Control Of The Corn Borer

The European corn borer is being brought under control in Ontario, and the grain corn industry is being re-established in the province. The corn borer was first discovered in Canada in 1920. During 1924, 1925, and 1926, it had spread to such an extent that some corn fields had 400,000 borers to the acre. Today, systematic control is being carried out by the Department of Agriculture, with the result in the re-establishment of the crop.

Alaska can produce 1,500,000 cords of pulpwood annually which can be converted into 1,000,000 tons of newsprint or more than one-fourth of the present yearly consumption of the United States.

"What I want to see," said the girl who didn't even have honorable mention at the beauty contest, "is a group photograph of the judges' wives."

REMEMBER YOUR OWN CHILDHOOD Give Cod-Liver-Oil The Pleasant Way SCOTT'S EMULSION

Extra Rich Milk Is Used In Famous Bohemian Cake

Practical foreign recipes are always of interest to the housewife anxious to vary the menu. This molasses cake is decidedly different, and is easily made if you use extra rich milk, on hand. Borden's St. Charles is particularly satisfactory, because it is twice as rich as ordinary milk, taking the place of cream in a cake of this kind. It never varies in quality; consequently you can count on uniform results in every kind of cooking.

Bohemian Molasses Cake
1 cup butter.
2 cups sugar.
1 cup molasses.
1/2 cup black coffee.
2 eggs.
1 teaspoon baking soda.
2 cups flour.
3/4 cup Borden's St. Charles Milk.
1 teaspoon ginger.
Cinnamon.
Almonds.
1/2 lb. raisins.

Cream together half a cup of butter, a cup of sugar, a cup of molasses, half a cup of black coffee, two yolks of eggs, and a teaspoon of baking soda, dissolved in one-half cup St. Charles Evaporated Milk. Then add two cups of flour, a teaspoon of ginger, a dash of cloves, cinnamon and almonds; also half a pound of raisins, if desired. Bake round slowly.

When done and cool, cover with icing as follows: Beat the two whites, pour into them, beating constantly, syrup made by boiling a cup of sugar with a fourth of a cup of Borden's St. Charles Milk.

Collecting Christmas Seals
Within the last few years stamp collectors, not content with the increasing number of new postage stamps issues, have added another item, Christmas seals, to their lists. As time goes on the Christmas seals are said to be increasing rapidly in value, although age does not always determine their worth.

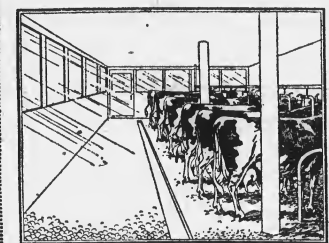

Saskatoon Power Plant
Construction work on the new power plant at Saskatoon, being built by the Provincial Government, at a cost of \$2,000,000, is going forward rapidly, and it is expected to be finished by November 15th. This new plant is said to be the most modern in the Prairie Provinces.

Polar Bear Favourite At Banff
One of the greatest favourites of visitors to Banff National Park is the polar bear in the Zoo. He was brought down as a tiny cub from near Herschel Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and rain, and is easy to fit. WINDOLITE is sold in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS and YOUR CHICKENS prosper. Ask in 100 % Sunlight Send for booklet "WINDOLITE"

SUNDAY SCHOOL LESSON

NOVEMBER 3

RESPECT FOR RIGHTEOUS AUTHORITY

Golden Text: "Let every soul be in subjection to the higher powers." -- Romans 13:1.

Lesson: Mark 12:13-17; Romans 13:1-4; 1 Peter 2:13-17.

Devotional Reading: Matthew 5:13-20.

Explanations and Comments

Jesus Teaches Respect For Law. Mark 12:13-17.—The Pharisees had resolved to compass the death of Jesus. How could they accomplish this? They decided to attempt to capture Him in His talk, so that they upon it reported something He said as treason, and thus secure from the Roman Governor His death sentence. Craftily keeping themselves in the background, they sent certain Pharisees and Herodians to Him with that object in view. The Herodians were the court party, a small class who resented the Roman rule, but favored the Herodians. The Pharisees and Herodians who hated each other, shows how great was their common hatred of Jesus.

"Teacher," the deputation began, "we know that Thou art true, and carest not for any one: for Thou regardest not the person of men, but of a truth teachest the way of God." By this preamble they meant that the question they were to propound was a dangerous one to answer, but they knew He was not afraid of questions.

Then came the question His enemies wished Him to answer. "Is it lawful to give tribute unto Caesar, or not? Shall we give, or shall we not give?" Caesar was the title given to all Roman emperors. The reigning emperor at this time was Tiberius. The tribute was the yearly tax levied on individuals by the Roman Government. Whatever answer Jesus might give would arouse hostility to His teaching. He thought: for He said that it was lawful to give tribute, the people would condemn Him; and if He said that it was not lawful, He could be reported to Pilate as a rebel.

"Bring us a denarius, that I may see it," Jesus commanded. Strict Jews would not carry a denarius, for they held that the emperor's image upon it savored idolatry, but one was easily obtainable from the money changers. When it was brought to Him, Jesus asked them to give the image and superscription? "Caesar's," was the answer. "Render unto Caesar the things that are Caesar's." And then Jesus quickly added, "And unto God the things that are God's." While discharging the duties imposed upon them by human conditions, men must never lose sight of the duties imposed upon them by their relationship to God. And they marvelled greatly at Him, at the ease with which He gave an answer that was irrefragable and at the same time evaded the difficult question into which they had thought to put Him, and at the way in which He turned the question away from a matter of politics into that of religion.

One of the greatest favourites of visitors to Banff National Park is the polar bear in the Zoo. He was brought down as a tiny cub from near Herschel Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

Magnesia Best for Your Indigestion

Most people who suffer, either occasionally or chronically, from heartburn and indigestion, have now discontinued disagreeable, dirty, harmful drugs, stomach tonics, antacids, artificial digestants, and instead, take a little Magnesia. They find that it gives them the result that their stomachs no longer trouble them, they are able to eat as they please and they enjoy much better health. Those who use illustrated Magnesia never dread the approach of meal time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize stomach acidity, sweeten the stomach, prevent food fermentation, and make digestion easy. Try this plan yourself, but be certain to get illustrated Magnesia especially prepared for stomach use.

Test Was Successful

Flying Boat Made Hour Flight With 169 People

D.O.-X, huge 12-engine flying boat, which was launched at Aithenber, Switzerland, last July, has made an amazing one-hour flight with a human load of 169, the first time in the history of aviation that so many persons have been carried into the air on any conveyance. The machine flew over Lake Constance, her motors working perfectly. The D.O.-X, carried 159 passengers and a crew of 10. The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy. She was designed to carry 40 passengers normally, but has accommodation for 100 if necessary. Her 12 engines can develop a total of 6,000 H.P. horsepower and each engine can be treated individually without affecting its neighbors.

The D.O.-X measures 150 feet from tip to tail. Its wings are 10 feet thick and 150 feet long. It is tipped to wing tip. Six gun turrets project from each wing, and each turret is equipped with two engines of 500 horsepower. The turrets are manned by mechanics who walk along a passage on the inside of the wings from one turret to another.

When the D.O.-X was launched, last July, she carried 34 tons of weight and was able to get into the air with the greatest ease after a take-off run of only 500 yards. Other trials were similarly successful.

One of the features of the 'plane is her three decks, while another is that the machine can fly with only eight motors in use.

Dr. Dornier built the 'plane at Aithenber, on the Swiss side of the German-Swiss frontier, because of the limitations on German aircraft imposed by the treaty of Versailles.

A spider has eight legs and from six to eight eyes.

Ever Try This?

The greatest remedy for colds, throat, cough, colds and tonsils, is Windolite. It is a powerful antiseptic and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth of poultry, and on the health of cattle and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their abodes.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry raising, and to the health of cattle and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their abodes.

Induced, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry raising, and to the health of cattle and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their abodes.

Personal and Local

Mrs. Chapple left on Monday for her former home in Wales, traveling via Montreal to Liverpool.

Earl Gray returned last week from Trelwa, B. C., where mining operations have been temporarily held up.

Mrs. Darrough and son Kenneth were visitors with Mrs. Sid Short last week, returning to Nelson, B. C., on Saturday.

Prize-winners at the K. of P. whist drive on Saturday were Mrs. J. Derbyshire, Mrs. Wm. Burrows, R. Jenkins and L. Caroe.

For C. P. R. steamship tickets via Montreal to United Kingdom and European ports, see C. W. MacKinnon at the Depot for complete information.

At the Rebekah whist drive on Saturday night the prize-winners were Mrs. J. Rogers, Mrs. J. Emerson, Mr. McKean Hunter and Mrs. Dickson.

Ed. D. Royle, superintendent of Mine Rescue Car No. 1, Blairmore, has been appointed an inspector of the Old Age Pensions, Department of Alberta, for this district—Enterprise

"It is an unhealthy habit," says a well-known doctor, "to lick the gummed side of a postage stamp." Quite, and may I add entirely on my own account that it is a pure waste of time to lick the other?—Postmaster.

J. R. Hill of the Bank of Commerce staff has been ill this week. On Saturday his parents motored from Medicine Hat to visit him but the snow on Sunday compelled them to cut their visit short and they left that morning.

Several people who went out on Saturday in their cars for weed and trips, were caught by the snow-storm and had to return without their cars. The snow gave most people a surprise on Sunday morning when they arose to find several inches, and it continued steadily throughout the day.

William Jenkins, the genial real who always extends the glad hand and the cheerful smile at the Grand Union, has been missing this week. A severe attack of influenza or something else equally provoking laid him low, but he is reported to be on the up grade.

Blairmore lodge of Elks have practically decided that instead of spending hundreds of dollars this year on a Christmas tree, they will devote their attention to distress, of which there will no doubt be quite a number of cases, following such a slack period at the mines.—Enterprise

The social evening held under the auspices of Minerva Chapter O. E. S. last Thursday evening was very successful, every available table being in play for the whist games. The gent's prizes were won by C. W. MacKinnon and McKean Hunter, and the ladies' by Mrs. Powell and Mrs. W. Milley, the latter cutting with two other ladies who tied for the second prize. Mrs. Altmann played for the dance following the whist games.

Coleman people who went to see "Humpty-Dumpty" at the Majestic theatre, Lethbridge, presented by the Roadway Pantomime Co. of Birmingham, Eng., are unanimous in expressing themselves as it being the finest theatrical production they have seen for years. Quite a number from various towns in the Pass journeyed down. The company is en route to the Pacific coast, playing all the big western cities.

Here and There

(412)
History was made in Canada when (Chief) Dimahshwah (Nipigon), of the Ojibways, met and greeted in all friendliness Chief Ocanonito (Doe) of the Ironsides, at Caughnawaga Indian Reserve, near Montreal, recently. There is no record of these tribes ever having met before in Canadian history. The Ojibway Chief is better known as Paul Cameron, head Indian guide for the past thirty years at Nipigon Camp, northern Ontario. Neither could speak a word of the other's language and conversed through the medium of English.

Judges of the annual fishing contests held at French River, Nipigon and Devil's Gap (Lake of the Woods) bungalow camps, have announced the winners as follows:—W. H. Graf, of New York, and Frank S. Slosson, of Chicago, tied for the trophy at French River with a 30-lb. muscalonge each; J. H. Lunn, of Hammond, Ind., won the Nipigon trophy with a 74-lb. speckled trout, closely followed by Mrs. Bundy, of Kansas City, with a 7-lb. pout; and A. R. Joslin, Jr., of Cincinnati, took the Devil's Gap trophy with a bass weighing 3 pounds, nine ounces.

"The destinies of Canada and Japan lie together in the great Pacific Ocean," declared Hon. Iyemasa Tokugawa, K.C.V.O., first minister to represent the Emperor of Japan, when he reached Dominion soil here with the arrival of the Canadian Pacific liner Empress of France, at Vancouver recently. He was accompanied by Togo Fukuma, Japanese Consul-General, both of them being on their way to Ottawa, where the former later delivered his credentials.

What is regarded as a record movement was made recently at the Saskatchewan Wheat Pool Elevator No. 7 at Port Arthur, when in 4½ hours, 550,000 bushels of wheat were transferred from the elevator to the hold of the steamship Le-moyne. There were periods during the loading of the ship when the wheat was carried like a torrential golden river from the elevator at the rate of 2,666½ bushels per minute.

Fifty different steamship lines now serve to carry Canadian products to every continent from the port of Vancouver, states a recent trade review issued by the Royal Bank of Canada. The review adds that in a period when the other great ports have had difficulty in maintaining their pre-war volume of trade, traffic through the port of Vancouver has experienced steady growth. From 122 ocean-going ships in 1913, the number increased to 1,344 in 1928. During the past year, 1,000,000 tons of the port had a value of \$250,000,000.

The largest sugar beet crop on record in Southern Alberta is being harvested in the Raymond district, centre of the industry. About 8,500 acres were sown to sugar beets this year, 2,000 more than in 1928, and the crop will on estimate yield about 65,000 tons or 23,000 above last year's production.

Cable advices from London state that Captain Ronald Stuart, V.C., D.S.O., U.S.N.C., R.N.R., commander of the Canadian Pacific liner "Quebec of York," has been officially selected to attend the Armistice Day ceremonies at the Cenotaph in London. Captain Stuart is one of the youngest liner captains on the North Atlantic and the only Canadian ship captain to wear the South Cross. It is expected that he will also be present at the "Dinner of the Waters" dinner to V.C.s.

The Coleman Journal

Tom Holstead went to the prairie on Saturday, and the snow prevented him returning with his car. He drove back in the old fashioned way behind a sturdy team, and arrived in town cold and hungry on Tuesday afternoon, after spending most of the day bucking snowdrifts. To day, (Thursday) the editor has taken a day off to go to Lethbridge. This is the reason The Journal is a day late.

Frank Graham, sr., intended going to Nelson, B.C., this morning, where Mrs. Graham has been for some time attending her father, who has been in a serious condition. As he is over 80 years of age, and no change is reported in his condition, reports are not reassuring by any means. During his absence, Wm. McGrath will be at the barber shop he having returned from Turner Valley on Wednesday.
